## Manufacturer Copay Assistance Program (MCAP)

Some specialty medications may qualify for third-party copayment assistance programs which could lower your out of pocket costs for those products. For any such specialty medication where third party copayment assistance is used, you will not receive credit toward your maximum out of pocket or deductible for any copayment or co-insurance amounts that are applied to a manufacturer coupon or rebate. Your employer has elected to enroll in Express Scripts's SaveonSP Only program(s).

## Generic Policy - Dispense As Written (DAW)

If you choose to buy the Brand name drug when a Generic equivalent is available, you will be required to pay the Brand copay/coinsurance plus the difference in cost between the Generic and Brand name drug.

## Maintenance Drug

A medication that is used for chronic health conditions on an ongoing or long-term basis (e.g., antihypertensive medication taken daily to control high blood pressure).

## CCS Medical Diabetes Wellness Program

Diabetic supplies are provided as part of the Prevention & Treatment Plan for diabetes and are provided to covered employees and their dependents at no cost to the employee (prescription copay is waived) when received from CCS Medical. These supplies include cellular glucose meters, diabetic testing strips, control solutions, lancets, lancing device(s), and alcohol pads. Enrollment in the LivingConnected program is automatic. Diabetic supplies not received from CCS Medical are subject to the above copays.

## Preventive Medications

Your employer's plan is subject to the Affordable Care Act (ACA) which requires the coverage of a number of preventive items and services at 100% and ensures these items and services are not subject to deductibles, maximum out of pockets, or other limitations such as annual caps or limits. You may contact RxBenefits Member Services at 1.800.334.8134 if you have specific drug questions or register at [express-scripts.com](http://express-scripts.com) to check drug costs and coverage.

## Compound Drugs

For compound drugs to be covered, they must satisfy certain requirements. In addition to being medically necessary and not experimental or investigative, compound drugs must not contain any ingredient on a list of excluded ingredients. Any denial of coverage of a compound drug may be appealed in the same manner as any other drug claim denial under this coverage. Compounded medications equal to or exceeding \$200 per script will require prior authorization.

## Step Therapy Program

Certain medications may be subject to step therapy. You could be asked to try one of the first or second level options before certain drugs are covered by the plan.

## High Dollar Claim Review, Prior Authorization and Appeals program (HDCR)

Medication costs exceeding \$1,000 per 30-day supply and \$3,000 per 90-day supply require prior authorization.

## Low Clinical Value Drug List (LCV)

Separate formulary exclusion list including low clinical value drugs, me too/chemically similar drugs, new to market drugs, and non-essential.

## Formulary

A list of Federal Drug Administration (FDA) approved Prescription Drugs and supplies developed by a Pharmacy and Therapeutics Committee, and/or customized by Express Scripts or RxBenefits. This list reflects the current clinical judgment of practicing health care practitioners based on a review of current data, medical journals, and research information. In your prescription drug coverage, the Formulary Drug list is used as a guide for determining your costs for each prescription. Drugs not listed on the National Preferred Formulary may not be covered. Your formulary is National Preferred.

**The following lists are not all-inclusive, but rather are lists of the most commonly used prescription drugs. These lists are subject to change. The Express Scripts formulary provides Sunrun**

## Prior Authorization and Appeals

If a prescription drug claim is wholly or partially denied, you or your authorized representative has the right to appeal the decision. You or your authorized representative may appeal the denial no later than 180 days after receiving notice of an adverse claim decision. Appeals of prescription drug claims are handled by RxBenefits and are decided in accordance with the terms of the plan document. Following a clinical review, one of four actions will occur: the medication is approved, the medication claim is denied, the doctor may decide to withdraw and prescribe a different medication, or the reviewer can dismiss the claim due to lack of communication from the prescriber. If denied, the appeal process is available. Your prior authorizations are handled by RxBenefits.

The following medications may require a prior authorization under your plan:

- Androgens
- Erectile Dysfunction
- Growth Hormones
- HSDD
- Narcolepsy
- Narcotics
- Topical Acne

## The Appeal Process

If denied, the member may appeal the decision. Upon appeal, a second pharmacist reviewer will evaluate the prior authorization and make a decision (approved/denied). If denied a second time, a final appeal may be made, which is forwarded to an outside medical reviewer. If denied, there are no further appeals.

Your doctor may initiate the Prior Authorization, quantity limit, high dollar claim review or any other rejection process by calling RxBenefits at 1.800.334.8134.
