

MAKE THE MOST OF YOUR HSA

We're here to make it easier.

Your Cigna Choice Fund® Health Savings Account (HSA) is so much more than an account to pay for health care expenses. It's tax advantages¹ and monthly earned interest. It's investment opportunities and a way to save for the future. Best of all, it's 100% yours - even if you change jobs or retire. Cigna Healthcare is here to help you make the most of it.

Funding your HSA

- › Once your plan becomes effective and your HSA is opened, you can start adding money tax-free to your account.
- › Contributions can be made through payroll deductions or through additional deposits whenever you want.
- › Your employer may also choose to contribute to your account.

Using your HSA

- › You can use the money in your HSA tax-free for qualified health care expenses that occur after you open the account.²
- › You can also use your HSA to pay for qualified expenses not covered through your medical plan, such as dental and vision expenses. For a list of eligible expenses, visit [Cigna.com/expenses](https://www.cigna.com/expenses).
- › There are many convenient methods to pay for health care expenses with your HSA:
 - **HSA debit card** - Pay directly at point of sale, such as at a pharmacy.
 - **Electronic Fund Transfer (EFT)** - Pay with personal funds and reimburse yourself with your HSA funds later.
 - **Online bill pay** - Pay your health care bill via the HSA online portal with payment sent directly to the doctor or facility.

Investing in your future³

Whatever money you don't use earns interest tax-free. You can just keep saving for future health care costs. Or, you also have the option to open an HSA investment account to gain additional savings for your future.

- › Like a 401k or IRA retirement account, HSA investment account earnings grow without being taxed.
- › You can move your HSA investment funds back into your HSA cash account anytime to pay for qualified health care expenses (unlike a 401k or IRA).
- › Withdrawals for eligible expenses are also not taxed.

Investments are subject to the loss of principal. Before opening an investment account, we encourage you to discuss your needs and goals with a financial advisor.
